**RE: EB Docket No. 06-36
2009 Year-To-Date CPNI Certification Filing for Millicorp**

Dear Ms. Dortch:

Pursuant to 47 C.F.R. § 64.2009(e), Millicorp hereby files its Certification of Customer Proprietary Network information (CPNI). This filing is being made as the Company just recently registered through the CORES system as well as having its International 214 Authority granted on August 28, 2009. As directed by previous Public Notices the Company is filing this Certification in EB Docket No. 06-36.

The company will stay in compliance with Commission rules by filing an additional Certification of Customer Proprietary Network information (CPNI) for calendar year 2009 with the Commission as required by 47 C.F.R. § 64.2009(e).

Please contact me at 407-740-3001 or via e-mail at tforte@tminc.com if you have any questions about this filing.

Thank you for your assistance with this issue.

Sincerely,

Thomas Forte
Consultant to Millicorp

Annual 64.2009(e) CPNI Certification for: Year to Date 2009
Date Filed: September 4, 2009
Name of Company covered by this certification: Millicorp
Form 499 Filer ID: NEW
Name of Signatory: Timothy Meade
Title of Signatory: President

I, Timothy Meade, certify and state that:

1. I am the President of Millicorp and have personal knowledge of the Millicorp operating procedures as they relate to CPNI, and the Rules and Regulations of the Federal Communications Commission regarding CPNI.
2. I hereby certify that, to the best of my knowledge, information and belief, Millicorp's operating procedures are adequate to ensure compliance with its CPNI obligations pursuant to Section 222 of the Communications Act of 1934, as amended, and the Commission's rules found at 47 CFR, Subpart U.
3. A further statement outlining the operating procedures and compliance of Millicorp is attached as Exhibit A, as required by 47 C.F.R. §64.2009(e).

STATEMENT OF CPNI PROCEDURES AND COMPLIANCE

MILLICORP*

Millicorp provides the following as its Statement of CPNI compliance.

Millicorp provides Voice over Internet Protocol (“VoIP”) services to customers in various locations around the United States. Millicorp does not use CPNI to market services to its customers, therefore there is no need to utilize the opt-in or out approval processes.

Millicorp bills customers directly and has taken steps to secure CPNI and manage its release in accordance with FCC rules. The Company has instituted processes to safeguard customer CPNI and call detail information from improper use or disclosure by employees; and to discover and protect against attempts by third parties to gain unauthorized access to CPNI.

User account information can only be accessed by authorized representatives of the Company. Such authorized representatives have access to customer records management systems only via an established password protected account setup in their name by a system administrator. When the Company agents access customer information of any type, an audit log is created on the account that indicates the company agent that accessed the records. Additionally, access to CPNI used for the purpose of reporting and managing the business is centralized to the Company’s Reporting Group that has limited password access to customer information.

STATEMENT OF CPNI PROCEDURES AND COMPLIANCE

MILLICORP*

(Page 2)

Call detail information is provided to customers over the telephone pursuant to the following procedures identified below. Customers define an account User Name and Password at the time the customer account is established. Should a customer forget or lose the password, such information can be provided to the customer at the email address established when the account was set up. If the customer cannot provide the correct password or response to any back-up authentication methods the Company requires a new password be established. If the customer cannot provide the password or backup authentication question response, and the customer question does not fall into the exception where the call detail information is provided by the customer to the Customer Service Representative, then call detail can only be provided by mail to the customer's address of record, or by calling the customer at the telephone number of record.

The Company maintains a record of all instances where CPNI was disclosed or provided to third parties, or where third parties were allowed access to CPNI. Currently there are not disclosures of CPNI to third parties nor has the Company received any complaints about unauthorized release or disclosure of CPNI to date.

Millicorp protects against the unauthorized disclosure of CPNI on the internet through the establishment of a customer username and password. Should a customer forget or lose the password, such information can be provided to the customer at the email address established when the account was set up. If the customer cannot provide the correct password or response to any back-up authentication methods the Company requires a new password be established. If the customer cannot provide the password or backup authentication question response then the customer can contact customer service. The customer must provide their email address of record prior to the customer service representative emailing the customer their username and password upon the customer's contact with the Company customer service department regarding a forgotten password or user name.

(Page 3)

The Company notifies customers via a previously established email address or mails to the customer address of record, all notifications regarding account changes (without revealing the changed information or sending the notification to the new account information): password changes, change in a response to a back-up means of authentication, change to an on-line account, or change or creation of an address of record other than at service initiation.

Millicorp has procedures in place to notify law enforcement (United States Secret Service and FBI) of a breach of a customer's CPNI within seven (7) business days, and to notify customers of the breach. The Company maintain a record of any breaches discovered and notifications made to the USSS and FBI. The customer's electronic record is updated with information regarding notifications on CPNI breaches.
